

The Snatchabook

Helen Docherty & Thomas Docherty

Make your very own pair of bunny ears to wear!

1. Cut carefully around the ears and strips of paper, following the dotted lines.
2. Stick strip A to the end of strip B with sticky tape so they make one long piece of paper.
3. Colour in the ears and the strip of paper.
4. To make your bunny ears stand up straight, fold each one in half lengthways, with the colouring on the outside. Then, stick them to the front of your paper strip as in the diagram.
5. Now, wrap the long strip around your head and stick the ends together. The paper band needs to be tight enough to stay up on its own.

Tape the strip so that it fits tightly around your head.

Fold both ears so that they stand up.
